### SORBONNE UNIVERSITY

Sorbonne University is a research and higher education facility (PRES) that wishes to group the resources of four institutions in order to create a top level university where education and research in law, literature, science and medicine all work in harmony.

Its objectives are to be a university offering a wide range of courses and to gain worldwide recognition. Located at the heart of Paris, its first goal is to step up the visibility of its excellent offer of higher education and research, by developing educational and scientific cooperation, sharing financial resources and infrastructures, designing new services and promoting Sorbonne University at national and international levels.

### THE FOUNDING MEMBERS

Set up as a Foundation for Scientific Cooperation (FCS) in the heart of Paris, Sorbonne University covers a surface area of 9 km<sup>2</sup> and brings together :

- three universities, Panthéon-Assas, Paris-Sorbonne, Pierre and Marie Curie, that offer complementary subjects and are leaders in their fields,
- and the Museum National d'Histoire Naturelle.

### THE ASSOCIATED MEMBERS

Sorbonne University has included associate members who represent the most valued partners of each of the founding universities:

- for Panthéon-Assas University (law, management, economics): INSEAD, The National School of Magistrates (ENM), The Bar School (EFB), The Centre for Professional Training for the Legal Profession (CFPNP), The School for Officers of the National Gendarmerie (EOGN), The Schools of Saint Cyr Coëtquidan, The National Police Higher Education School (ENSP),
- for Paris-Sorbonne University (literature and humanities): The Ecole Nationale des Chartes, The National Institute for History of Art (INHA),
- for Pierre and Marie Curie University (sciences and medicine): Compiègne University of Technology (UTC).

*This course deals mainly with practical case studies and certain key subjects, with a pluridisciplinary focus.*

*It prepares students and professionals for operations such as large acquisitions or market transactions, cross-border mergers, complex financing, restructuring, LBOs, financial engineering, and industrial projects. These are interesting operations, offering difficulties that often lead to innovative solution-seeking. It is particularly educational to study them and analyse the legal, financial or accounting issues raised. Thus, contracts, guarantees, financing and international trade litigation, among other basic subjects, can be studied from different angles.*
